Agricultural Projects & Practices ➤ Cropland Water Savings

The CREP acres enrolled with the Farm Service Agency in Power County aid in reducing consumptive use of groundwater on cropland in the Eastern Snake River Plain. ISWCC staff work with each participant to prepare conservation and seeding plans for establishing and maintaining conservation cover for the 15 year contract period.

In FY 2019, there are currently 6 active contracts on 1,193 acres.

Key Accomplishments/expenditures are cumulative amounts for Power County. See the aggregated CREP project listed under "Conservation Reserve Enhancement Aggregated from 2006 – 2019 (CREP)" for a breakdown of all program funding.
